ΠΡΟΣ Mrs Piera Ligori,
Dirigente Scolastico
Istituto Comprensivo Statale
Scuola Dell'Infanzia,
Primaria e Secondaria di 1o grado

Dear Mrs Ligori,

We have received your Easter cards and we and our students loved them.

After the successful meetings via skype between our students (68th gymnasium of Athens – Calimera – Martignano on 13th and 15th of January respectively), we inform you about the progress of our program:

1. We created the logo of the “Protocollo d’ Intesa ODYSSEAS” and we are very proud of it. (Inspector Macri told has already informed you).
2. We presented our program in a meeting in Athens on 11th of February which Mr. Franco Inglese and Mrs. Anna Cammalleri also attended and we received positive comments. You can watch the ppt of the presentation “Purpose and Activities of our cooperation” as well as the activities and the projects that we have done, on our blog named “Calimera 68th Gymnasium of Athens – Calimera Martignano – Calimera Grecia Salentina” <http://calimera68gym.blogspot.com/>
On this blog we try to gather information about your region (place – history – language (grico)) in order to complete a project. There, you can find useful information about our city.
We also uploaded the latest projects named: “What Calimera means to us” and “Customs and traditions of Greek Easter”. It would be our pleasure if you could help us to complete these projects, by telling us what “Calimera means to you” as well as your own customs and traditions of Easter.
If you would like to upload your own projects on the program in this blog, it would be our pleasure.
3. We have created a dashboard where our students (68th Gymnasium - Calimera and Martignano) can exchange their thoughts. We have been really happy to see that the communication between our students is successful.
<http://padlet.com/NikiKatsari/zba0p2cmvins>
4. We have also created a webpage that you can visit and where we gather music in grico:

<http://www.scoop.it/t/i-canti-e-la-musica-cantata-in-griko>

5. We will participate in Erasmus plus and wait for instructions for the project.

Finally we would like to inform you that the success of the blog as well as padlet and scoop.it, depend on our successful and continuous cooperation.

All the best,

Polimeropoulos Gr., PhD

Head Master
